

Holidaze Style Guide

The visual language behind Holidaze — a teal-led, WCAG-compliant system for a premium yet accessible accommodation booking experience.

01 • Brand

Holidaze connects travellers with unique stays worldwide. The tone is friendly yet professional, with short, action-driven labels like “Book now” and “Get started”.

Logo

Wordmark set in **Fraunces 600**, Primary 900. Minimum height 24px, minimum 16px clear space. Never stretch, rotate or add effects.

Errors, destructive actions

Contrast. Body text on white reaches 17.9:1 (AAA); Primary 900 on white 12.3:1 (AAA). Focus rings use Primary 700 and input borders Neutral 400 so both clear the 3:1 non-text minimum. All interactive elements meet WCAG AA.

03 • Typography

Fraunces (serif) carries display moments; **Inter** (sans) handles everything else.

04 · Spacing, radius & shadow

Spacing derives from a 4px base. Layout max-width 1280px.

TOKEN	VALUE	USAGE
radius-sm	8px	Buttons
radius-md	12px	Inputs, cards
radius-lg	16px	Large surfaces
radius-xl	20px	Modals
shadow-sm	0 1px 2px rgb(0 0 0 / .05)	Cards
shadow-md	0 4px 6px -1px rgb(0 0 0 / .1)	Raised
shadow-lg	0 10px 15px -3px rgb(0 0 0 / .1)	Modals, hover

Breakpoints

NAME	MIN WIDTH	GRID
Mobile	< 768px	1 column
Tablet (md)	768px	2 columns
Desktop (lg)	1024px	4 columns
Wide (xl)	1280px	Max width

05 • Components

Buttons

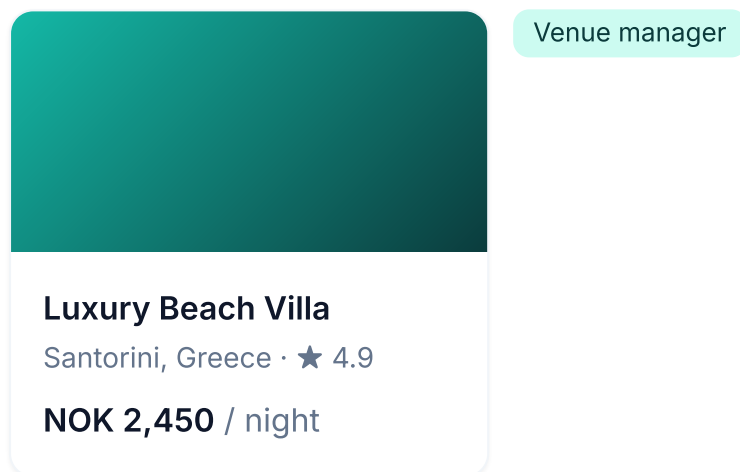

Heights sm 32 / default 36 / lg 40px · radius 8px · focus ring 2px Primary 700 with offset · primary hover → Primary 700.

Form input

Height 48px · radius 12px · border Neutral 400 · focus 2px Primary 700 ring · errors use Danger with an inline message and `aria-invalid`.

Venue card & badge

06 • Accessibility

- All text meets WCAG AA; body and headings reach AAA.
- Every interactive element has a visible focus ring (2px Primary 700, offset).
- Colour is never the only signal — errors add text and `aria-invalid`.
- Semantic HTML: `<nav>`, `<main>`, `<footer>`, headings in order.
- Icon-only buttons carry `aria-label`; images carry meaningful `alt`.
- A skip link, per-page titles and reduced-motion support are built in.
